Note: CG4/CG6 models supplied with 4 ft. plug-in cord (NEMA 6-15P).

Utilities

Electrical

208-230/60/1, 15 AMP

1

Hot Water

1/2" IPS. Flow pressure 25–95 psi

2

Cold Water

1/2" IPS. Flow pressure 25–95 psi

3

Drain

1-1/2" tailpiece. Connect to drain size according to local plumbing code.

Plumbing Notes: Because of the variation in house-supplied steam and water pressures, steam and water pressure regulating valves (PRVs) may be needed. (Water PRV is standard on machines with booster.) The PRVs can either be purchased from Champion or obtained locally.

Champion does not endorse using on-demand (tankless) water heating systems, as well as PEX and other plumbing materials that may limit water flow, as these could impair machine performance. For optimal results, we recommend using appropriately sized conventional hot water tanks and standard copper water supply lines that adhere to our specifications. Not following these recommendations may void the manufacturer's warranty.

Water hardness of 3 grains/US Gal (0.83 Imp Gal) – 5.3 Mg/L or less
